Sherman Commercial Nurseries and Orchards

Sherman, Texas

Jno. S. Kerr, Proprietor

TO OUR CUSTOMERS.

The Prosperity we have always enjoyed and especially that of the past season, is due to the liberal patronage given us by our old customers and to the large number of new accounts that have come to us. For all of which we return our most sincere thanks.

Our Thirty Years' Record is before our people. Among our customers and friends we stand or fall by this record, open for adjustment of mistakes and assuring our best efforts for correct dealings in the future. To those unacquainted we ask a trial of our stock and methods. To all, we suggest that to submit your want list for prices may prove profitable and we will thank you for them.

We Invite Inspection of our facilities, our methods and stock. Our office, large packing sheds and twenty acres of ornamental grounds are one mile northeast of the court house Sherman, Texas, on the Denison road half mile north of the union depot, and six blocks north of where the Sherman and Denison Interurban Railway crosses the H. & T. C. Railroad. Cars run every thirty minutes.

Also Large Test Orchards and finest nursery lands near Pottsboro on Red River, insuring every possible advantage in growing healthy, high grade and true to name stock from tested mother blocks.

We have no connection with any other nursery or nursery company. We devote our undivided attention and a strong capital to the work, and besides have most efficient and reliable assistants of long years experience with us and of known ability, honesty, and reliability, inthe propagating field, the packing sheds and the office.

Not How Cheaply but How Well can stock be grown and handled is our aim. Nothing too good for our customers. The stock we offer is of prime quality.

Our Transportation Facilities are as good as the best. We have seven railroads, viz: H. & T. C., T. & P., M. K. & T., Santa Fe, Cotton Belt, Frisco and Interurban, with arrangements pending for the Rock Island and others. We have switch to load cars on our grounds. Four express companies, Pacific, American, Wells-Fargo and United States, promised.

Of Telegraphs we have Western Union and Postal Companies. All telegrams delivered promptly by phone to our office.

Very truly yours,

JOHN S. KERR.

FOR YOUR INFORMATION.

TERMS. Cash or satisfactory arrangements are expected. To customers of known responsibility and promptness, the usual short time is accorded. Unknown parties should send in their orders with references in time that we may look them up, and that proper security or credit may be arranged, thus avoiding unnecessary delay during the rush. All bills payable at Sherman, Texas.

Our Digging, Handling and Packing are done in the best manner. Our packing season begins about November 15th continuing in open weather all winter and spring until April 1st.

Please state how Goods are to be Shipped by freight or express, and by what route. Otherwise we will ship as we think best for the purchaser. The risk and cost of transportation belong to the purchaser, unless by special prepay arrangements.

We Have Found that ordinary shipments in bales by express are often as cheap and more satisfactory than heavier boxing and longer time by freight. Boxing by freight takes the lower third class rate, while bales by freight take first class rate. Either has 20% discount from merchandise rate by express.

A Release to Five Dollars Valuation per Hundred Pounds will be written in all bills of lading, by freight, which is necessary by law to secure the lowest freight rate, UNLESS ORDERED NOT TO DO SO BY THE PURCHASER.

Packing will be WELL DONE free of cost at the prices herein named.

In Grading include the lower and exclude the higher number.

Thirty to Three Hundred Trees in an order filled at rates per hundred, three hundred trees and over filled at rates per thousand. Assorted orders to amount of five to fifteen dollars will be filled at rates per hundred. Fifteen to sixty dollars at rates per thousand. Special estimates on large orders and car lots.

Telegraphic Orders will be filled, if possible, same day received.

The Greatest Care Possible is exercised to have all stock true and labeled with the true name, and in good order when shipped. In case of failure in any of these respects, it is understood and agreed in all orders given to and filled by us that we are to be held liable for no further damage than the original amount paid for such stock.

Dealers Purchasing from Us, whose orders we fill with all due care, sell upon their own responsibility. We also disclaim liability for losses arising from defective planting or subsequent faulty cultivation and treatment. We cheerfully correct errors, and where losses do occur after due care, we deal liberally in refilling.

Thousands of Bearing Orchards and pleased customers throughout the country, and our reputation gained in long years of business experience, are our guaranties to customers for genuineness and high quality of stock and honorable dealing. We also refer, by permission, to any bank in Sherman, Texas.

Directions for Planting. Keep the roots moist and cool. Do not expose them to cold or drying winds or sun at any time. Set out at once, in deeply pulverized soil in good condition for corn or cotton. Holes must be ample, to allow all roots a free and natural position, 1 inch deeper than in the nursery; set pears and apples 5 inches. Lean to south, use fine soil, water freely about the roots, and pack; mound up with loose earth. Distances: Trees, 25 x 20 feet; Grapes, 8 x 8 feet; Raspberries and Blackberries, rows 7 feet apart, plants 2 feet apart in rows. Take off all tags; cut back roots and all tops and limbs short, when set; head 2½ feet high. Four barbed wires will secure against stock. Cultivate the orchard and all trees well. Secure for three years against rabbits by using our Veneer Tree Protectors at 2 cents per tree.

NUMBER OF PLANTS TO AN ACRE AT GIVEN DISTANCE APART.

1 foot	43,560	12 feet	302
2 feet	10,890	14 "	222
3 "	4,840	15 "	193
4 "	2,722	16 "	170
5 "	1,742	18 "	134

7 "	888	25 "	69
8 "	680	30 "	48
9 "	537	35 "	35
10 "	435	40 "	27

All Claims Must be Made Promptly on receipt of the goods for correction.

We appreciate Your Patronage and assure our best efforts on a fair, liberal, "live and let live" policy.

Our Full Descriptive Catalogue will be issued about January, 1904, and will be sent free on request.

Read "Farm and Ranch," (weekly), Dallas, Texas. $1 per year. The best Southern journal.

Address all orders or communications to

JOHN S. KERR, Sherman, Texas.

We handle our Evergreens with great care. ***Puddling roots*** in mud as soon as dug, and packing in damp moss promptly, at the prices above. ***Balling*** each tree by burlapping a small ball of natural soil to the roots, is the surest way, and will be done if ordered, at an additional cost of three to five cts., owing to size. Ordinarily about three and a-half cents.

Plenty of Good Water under pressure, throughout our grounds and sheds, is one of our important advantages.

ROSES.

Our roses are from two inch pot plants on their own roots, regrown in open ground, and are called two year plants, and are strong and vigorous, true to name, having bloomed one season.
